

## Truvox Cimex HD Heavy Duty rotary floor cleaner

- Scrubs and polishes a variety of surfaces
- Floating brushes for uneven surfaces
- Diamond finisher option for marble and stone floors
- Cleans up to 950 sq metres per hour
- Can scarify concrete floors

Truvox Cimex Heavy Duty rotary floor cleaners have been specifically designed to cut through dirt, oil, grease, paint and other extremely tough deposits.

These **Heavy Duty (HD) floor buffers** are also equipped with wire brushes for scarifying concrete industrial floors.

For preparation of marble, granite, terazzo or other stone floors, the **Diamond Finisher (DF)** is the ideal floor buffer.

With a unique Cimex triple brush action and machine construction, this rotary cleaner is very stable with no pulling action, resulting in reduced operator stress and fatigue.
